⚠ WARNING - Seizures

Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.

Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

Convulsions
Altered vision

Eye or muscle twitching
Involuntary movements

Loss of awareness
Disorientation

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

⚠ WARNING - Repetitive Motion Injuries

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendonitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.

- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.

YOSHI'S ISLAND

Our Story

This is a story about Baby Mario and Yoshi...
A story that took place a long, long time ago.

A stork hurries across the dusky, pre-dawn sky. In his bill, he carries a pair of brothers. Suddenly, a shadow appears in a gap between the clouds and races toward the stork with blinding speed.

**"SCREEECH!!!
THE BABIES ARE MINE!"**

Snatching only one baby, the creature vanishes into the darkness from whence it came.

The second baby falls undetected toward the open sea...

OH, NO...!

The kidnapper is Kamek, an evil Magikoopa from the Koopa Kingdom. Having divined that two babies born this morning would bring disaster to the Koopa family, he has arranged for an early-morning ambush. Returning to his castle, Kamek realizes that he missed the other baby. He orders his toadies to retrieve it.

Go forth and find the other baby!! Don't let his parents get him back! Ever!!

But the second baby does not fall into the sea after all... it lands safely on Yoshi's back! And right after that, a map falls from the sky!!

This paradise is Yoshi's Island. And on this island live lots of different Yoshis. These Yoshis are naturally laid-back and relaxed, but the baby's arrival is a calamity, and everyone goes into a state of panic. As the Yoshis frantically yell over each other, the baby insistently points at something.

Yes! The baby can sense his brother's location. All the Yoshis quickly agree to help carry the baby to its destination by using a relay system not unlike the old pony express. The Green Yoshi draws first honors. With the young baby on his back, he sets out in the direction the baby is pointing...

Playing the Game

1

Clearing Stages

To clear a stage, jump through the GOAL ring and hand Baby Mario off to the next Yoshi. Defeat all enemy enemies and bosses if you can while you try to make your way to the end of each stage.

2

Star Power

When this number reaches zero...

If you get hit by an enemy and take damage, Baby Mario will fall off of Yoshi's back. When this happens, the power of the stars will protect Baby Mario for a short while. A timer appears to show just how long this protection lasts. If the counter reaches zero, Baby Mario will be swept away by Koopa's troops. To fight Baby Mario back on Yoshi's back before him runs out!

Star Power

Your star power is at ten at the start of each stage.

Star power is set to ten whenever you start a stage, but that number goes up by one for each star that Yoshi gets in the stage. The power can increase to a maximum of 30. Even if you take damage and the number falls, it will automatically be set to ten again when you get Baby Mario back.

Helpful Techniques

If Baby Mario floats too high in the sky for you to grab him, you can hit him with a Spiny egg. To do this, you can grab him with your tongue by sticking your tongue upward.

Midway through each stage is a ring of light called the Middle Ring. Once you get through this ring, you will restart the stage from nearby if you fall before completing the stage. Also, as you pass through it, your star power will rise back to ten.

If you fall and use the Game Over message, you will have to restart the stage from the beginning.

Anytime you press START while in one of the stages, you can view the pause menu. Use the + Control Pad to make a selection and press the A Button to confirm.

Continue

Continue playing your game.

Return to Map

Leave the stage and return to the stage-select screen to choose a new one. (Stages you haven't cleared won't be displayed.)

Sleep Mode
Pause your game and activate Sleep Mode. To deactivate Sleep Mode, simply press SELECT and the L and R Buttons simultaneously. See page 11 for details about Sleep Mode.

Coins

You'll find coins all over the place. Collect 100 of them to get a 1-Up.

Red Coins

Special Flowers

There are five flowers in each stage. Collect all of them for a 1-Up. Flowers are worth a lot of points.

Eggs (Carry up to Six)

Yoshi can carry up to six eggs at a time. You can swallow enemies to make eggs, or you can get eggs by hitting certain blocks. When you use any egg other than a green one, an item will appear.

Enemy Profiles

Spinys

Spinys are the most common you meet. You can flip them over and then you throw off the screen. Be careful though—they'll get back up after a few seconds, and they'll be faster than before.

Fireballs

If you throw a good one, the one in the floor beneath them will start to burn and put them out of a lot.

Freezys

If you don't knock these guys out quick, they'll freeze the floor and send you sliding away.

Fighter Flies

Fighter Flies can be stunned only when they land on the floor. Good timing is essential to getting rid of these flying pests.

Crabs

Crabs are pretty tough customers, so you'll need to flip them twice to stun them. They're a lot harder than the Spinys, too.

Mario Bros. Battle

Using the Garbage Can

1

Use It Well, and Use It Often

When you are playing Two-Player Vs., a garbage can rests on the bottom level in the game. Use it well, for it can sometimes be the key to victory.

- If you pick up your rival and carry him or her to the garbage can, the lid will open and you can throw that player inside. It will automatically close and keep that opponent out of action for a while.
- If you're in the garbage can, you'll have to wait a few seconds until the lid opens again. When it opens, jump out and rejoin the game.
- Being trapped in the garbage gives your rivals a chance to grab some coins, but you'll receive a special item that might help you turn the tables on them!
- If your opponent is standing on top of the can and you're trapped inside, use the Super Jump to knock him or her off and escape.
- You will receive a random item when you jump or are thrown into the garbage can.
- The garbage can holds four different types of items. One of these, the egg, contains one of three additional items. You never know what you'll get, so don't forget the garbage can when planning your game strategy.

Koopa Shells

These shells damage anything they hit. You need to throw them or kick them to send them sliding away.

POW Blocks

POW Blocks stun all of the enemies on-screen and shrink any rival players when you toss them onto the ground.

Fish Skeletons

These are useless, and they smell funny. Throw them away.

Eggs
